# Institute for Church and Society

## Evangelical Church of Westphalia

Evangelische Kirche von Westfalen

## Who we are

The Institute for Church and Society is an entity of the Evangelical Church of Westphalia and member of the Evangelical Association for Adult Education of Westphalia and Lippe. The Institute supports the Church in promoting its political agenda.

## Get involved!

Broad alliances are needed to cope with modern challenges. A change of policy has to become the mutual task of government and civil society.

## We invite you

to attend our conferences and workshops, to join our projects and campaigns, to discuss our position papers.

## What we do

The IKG gives orientation and builds the capacity to act. We want to encourage and empower people to strive for a sustainable society. This goes hand in hand with our conviction that a fairer world is within reach, as promised by God.

## We

- **provide** government-funded professional training (in accordance with the law of education of the state of North Rhine- Westphalia)
- **organize** conferences and workshops to
- debate with representatives from politics, business and society
- **conduct** projects and campaigns that
- promote social justice and help to protect the environment
- **publish** position papers on current issues
- to stimulate public debate.
