Die Welt von den Rändern aus denken – Neue Perspektiven auf Konflikt und Frieden

Peace and Conflict Studies from the margins to the center. Rethinking Europe in an unequal world

16 – 18 March 2017

Evangelische Akademie Villigst, Schwerte

In Kooperation mit / In Co-operation with
Arbeitsgemeinschaft für Friedens- und Konfliktforschung (AFK) und / and
The European Peace Research Association (EuPRA)

Current developments in Europe – including the securitization of borders, the categorization of refugees and other displaced persons, and the challenges arising from growing racist and right-wing populist movements and discourse – urgently demand responses not only from politics and civil society, but also from peace and conflict studies. This conference aims at bringing together different approaches in order to develop reflexive, critical, empirical, and normative thought to both confront and probe our positions and practices as well as to reflect on their location vis-à-vis the centers and margins of power. In addition, new developments urge us to acknowledge and appreciate challenges and alternatives to “Western” or “Westernized” thought and to investigate Europe’s involvement in current economic and violent conflicts.

For their first joint conference, the Evangelical Academy Villigst, in cooperation with the German Association for Peace and Conflict Studies (AFK) and the European Peace Research Association (EuPRA), invites all scholars to present and discuss their academic work on the political challenges Europe is currently facing, while reflecting on the continent’s role and responsibilities in light of global power structures. Furthermore, this joint conference aims at fostering international cooperation between scholars of peace and conflict studies from Europe and other continents.

Es laden Sie herzlich ein / Your Hosts are:
